

These 4 port, vented, pilot-to-open check valves predate the current design, CV*V. They use a non-standard, modified Sun cavity and a non-standard port configuration. They are not to be used for new designs.

TECHNICAL DATA

NOTE: DATA MAY VARY BY CONFIGURATION. SEE CONFIGURATION SECTION.

CONFIGURATION OPTIONS

Model Code Example: CVCEICN

CONTROL	(I)	CRACKING PRESSURE	(C)	SEAL MATERIAL	(N)
I Standard Pilot		C 30 psi (2 bar)		N Buna-N	
		B 15 psi (1 bar)		V Viton	
		D 50 psi (3,5 bar)			
		E 75 psi (5 bar)			
		F 100 psi (7 bar)
